# GARDENERS SUPPLY COMPANY

We're in the business of gardening because it nourishes the body, elevates the spirit, builds community, and makes the world a better place.

For 30+ years, our design & development team has been listening to our customers and solving gardening problems in creative new ways. Thanks to them, many of our products can't be found anywhere else!

We donate 8% of our company profits to programs and organizations that are using gardening to improve the world.

**PROUDLY

OWNED**

# Large Painted Stainless Steel Compost Pail

Your food scraps never had it so good! Stylish and lightweight, this 1.5 gallon-capacity stainless steel compost pail is good-looking, long-lasting, and easy to clean. The vented lid fits replaceable carbon filters, allowing airflow while keeping odors contained.

# Tolita Recycled Self-Watering Containers

These clever containers, made from 100% recycled plastic, are a greener way to add bursts of green to any home. Perfect for countertop herbs or colorful blooms, the 2-way self-watering system is super efficient — and super helpful for forgetful growers. Available as a 12" box (shown) or 8" dia. pot.

# Arch Trellis for 2' x 4' Planter Box

This smaller version of our best-selling 2' x 8' Arch Trellis may be more compact, but it's just as sturdy, supporting big burlies like squash and cukes as easily as fair beauties like morning glory. Fits right into the Lifetime corners of our 2' x 4' elevated raised beds.

# 6-Panel Green Critter Fence with Gate

This sizable critter control solution safeguards crops and blooms from pests and pets. A simple gate makes for easy entry and hinged sections let you create custom shapes.

# Japanese Pruning Scissors & Houseplant Pruner

Keep houseplants looking sharp with these chic shears, sold separately. Both finely engineered for strength and precision, the Houseplant Pruners sport rust-free stainless steel blades, and the carbon steel blades of the Japanese Pruning Scissors easily retain a razor-sharp edge.

# Indoor Plant Mister

A fine mist in a fine package! Gently spritz seedlings, succulents, and tropicals with this stylish sprayer. Available in Gray or Steel.

# Indoor & Outdoor Plant Sprayer with Tank

This portable houseplant hero and seed starting savior adjusts from a fine mist to a steady stream. Simply load the water tank, pump to pressurize, then spray the day away!

# Pinpoint Indoor Watering Can

Lightweight and compact, this stylish watering can is easy to carry around, and attractive enough to double as decor. Its pinpoint spout makes it ideal for watering succulents and other plants in small pots.

# Hortiwool

This stuff isn't fluff! Hortiwool provides natural hydration, insulation & nutrition for seeds and plants. Great for seed starting, mulch, self-watering capillary matting, and more. So many uses, you may want three bags full! Available in 1- or 5-pad packs, or as a hanging basket liner.

# Double Delicious Potted Amaryllis Trio

Roses are red, violets are blue — but amaryllis is more memorable than either of those two! A perfect Valentine's Day gift (that will last long beyond), these perky pops of red in a glimmering gold-and-tuquoise cachepot keep blooming for weeks!

# Jardin Tower

This towering support is so tall, your beans may need a breather halfway up! Made with long-lasting powder-coated steel, its hand-painted finish gives it a finely-aged look, even newly-installed.

# Dea Roman Arch & Connectors

Tall, strong, and handsome, the Dea Arch dazzles in royal blue! Available Connectors let you join multiple arches for a striking look that'll make your neighbors green with envy.

# Gardener's Best® XL Seed Starting Kit

Set yourself up for a more successful gardening season! Grow full-size, garden-ready seedlings with this extra-deep self-watering system. Larger cells with vents to promote air pruning produce stronger, healthier, more developed root systems. Optional humidity trays sold separately.

# Sunlite® 3-Tier Humidity Cover

This well-designed addition to our best-selling Sunlite® line keeps things cozy for seedlings and tropicals. Zippers on each side provide full access, and reinforcing rods prevent sagging. Easy to install and ready to use right out of the package.

# Botanical Specimen Collection Kit & Herbarium Journal

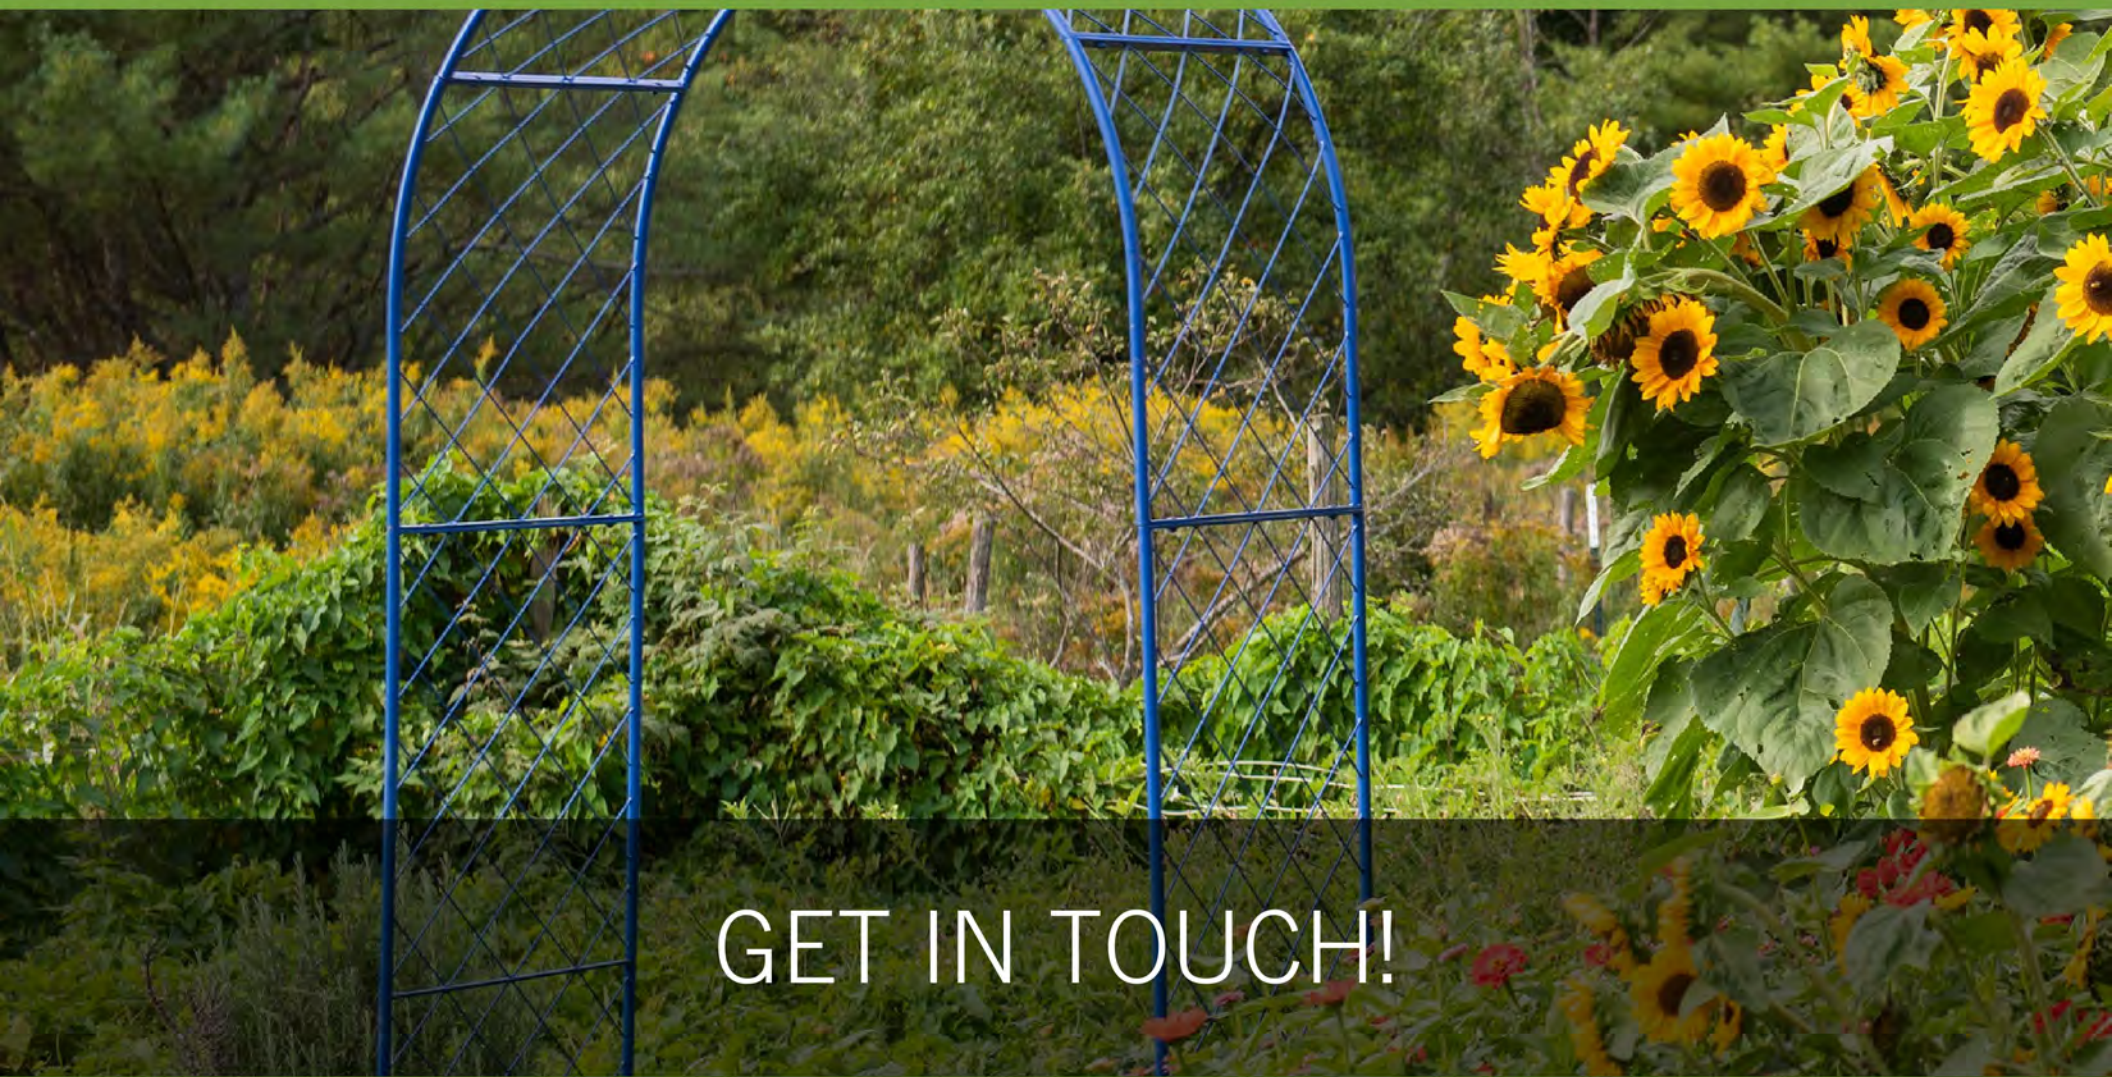

Collect and preserve great finds (and fond memories) from the natural world! The Botanical Specimen Collection Kit includes tools and bottles to store your treasures. The high-quality, hardbound Herbarium Journal lets you preserve pressed flowers on 100% recycled acid-free cardstock.
