RAISED GARDEN BED

4’ x 8’

1 LEVEL KIT CONTAINS:
• Composite timbers 4’ x 6
• Brackets x 12
• **Stacking Stakes x 6**
• Plugs x 24
• Caps x 6

Layout your timbers along the borderline and connect each timber together by inserting the top of the stake through the bracket loops with the stake pointing to the sky. This enables you to freely position your border to get your desired location.

ASSEMBLY INSTRUCTIONS – For the First Level

STEP 1:
Assemble the timbers by sliding one end of timber into channel end of one of the brackets. Use plugs to cover the holes on both sides to lock the bracket in place.

Repeat this process on the opposite end of the timber flipping the bracket in the opposite direction (see image). **Repeat for all timbers on the first level.**

STEP 2:
Layout the base level of your raised garden in a straight rectangular shape, using 6 timbers. Insert stake through the hole of the bracket and into each of the corners to lock all sides in place.

**STEP 2a:** For one level, add caps to each of the top corner joints to finish off the raised garden.

HAPPY GARDENING!

ASSEMBLY INSTRUCTIONS – For Product with Two to Four Levels

STEP 3:
For the second level, use 6 x 4’ and 1 x 4’ cross timber (refer to 3b), plus the stacking stakes. Insert one stake through the brackets into the hole on top of the stake beneath it to lock the second level in place.

For 2 levels, **USE 3-Way timbers on 2nd level ONLY, base level will not use 3-Ways.**

Lastly, add the caps to each of the top brackets.

**LEVEL 3 & 4:** Repeat step 3. The 4-Way timbers will be use on 2nd & 4th levels ONLY.

How the Joints Work

**3 LEVELS**
1 x 4’ timbers with 4-way brackets on level 2.

**4 LEVELS**
2 x 4’ timbers with 4-way brackets on level 2 & 4

3-Way Connection:
Combining one half of a 4-way bracket and a stacking bracket (A), will result in a 3-way junction (B).

**NOTE**
Stacking stakes can be used on all levels and when creating additional levels. **ONLY** Stacking Stakes can stack!

**FOR INDOOR & HARD SURFACE:**
If you plan to assemble raised bed on a hard surface, use hacksaw to remove the spike of each stake. Use these cut down stakes for the base level only of your raised garden.
