

# Farmhouse Endless Towel Rack

Always have a towel handy and reduce paper towel use with our handcrafted rack. Pull the 100% cotton circular towel to a dry spot each time you need to dry your hands.

## Mounting Instructions

The towel rack has two keyhole openings on the back for wall mounting. Screws are not included. Purchase the mounting hardware for your specific location from a local hardware store. Anchor the screws into solid wood for the strongest support.

Place the rack at a convenient height and within easy reach of your sink. Note: The circular towel hangs 32" below the support dowel.
