

Charleston Fan Garden Stake

The Charleston Fan Stake is a lovely garden decoration with its interesting shapes and lace-like cutouts. Each Fan has one blue side and one aqua green side, so you can choose which color to display. Available in 3 different styles: Linden, Ginko and Water Lily.

Assembly is easy. Just slide one pole on top of the other and place the Charleston Fan on top. We recommend pressing the Stake about 6" into the ground.

The powder-coated steel is weather-resistant. However, if the finish is nicked or scratched, use an exterior-grade metal paint to prevent rust.
