Rolling Round 2-Tier Plant Stand

With wheels and sturdy supports, this lovely plant stand can go anywhere — both indoors and out. When it is not in use, it folds for easy storage.

Assembly & Use Instructions

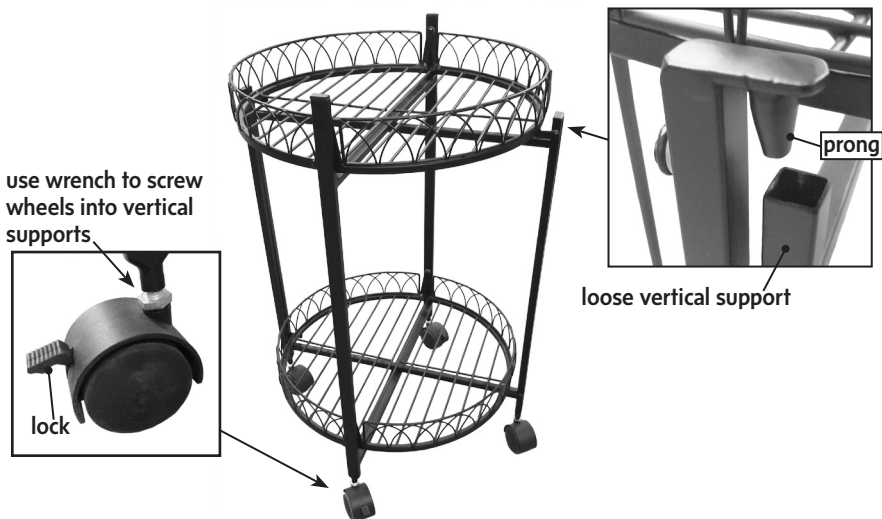

Use the included wrench to screw the wheels into the bottom of the vertical supports.

To unfold the Plant Stand, lower the shelves and spin the loose vertical support 90° clockwise. Slide the prongs attached to the shelves into the open slots on the loose support, as shown below. Your Plant Stand is now ready to use!

To secure the Stand in place, press down on the locks on the wheels. Just lift them up again to unlock them.

To refold the Plant Stand for storage, slide the prongs out of their slots and spin the loose vertical support 90° counter-clockwise. Then lift up on the shelves. **NOTE:** If you raise the shelves before spinning the loose support, the Plant Stand won't fold completely flat.

Each tier holds 20 lbs. evenly distributed. The powder-coated steel is weather-resistant and can be left outdoors year-round. However, if the finish is nicked or scratched, use an exterior-grade metal paint to prevent rust.
