

Recycled Rubber Mulch Mat

Instead of replacing mulch every year, save time and money with the Recycled Rubber Mulch Mat. Made from recycled tires, this Mat prevents weeds from growing, while still letting air and water through. It's perfect for using between raised beds.

The Mulch Mat can be cut to size if necessary. **NOTE:** There is a cloth backing with the Mat that is included as part of the manufacturing process. **The backing is not a part of the Recycled Rubber Mulch Mat.** You can either place it underneath the Mat for an added layer of protection or discard it.
