SUPPLY COMPANY

Jardin Flower Trellis

The Jardin Flower Trellis has the classic lines of Tudor arches, but with a simple, understated design that showcases your climbing plants. Open, 4" lattice gives roses, clematis and morning glories plenty of places to vine and twine.

Parts List:

- (1) Upper Panel
- (1) Lower Panel
- (2) Stakes

Assembly Instructions

Step 1. Choose a place in your garden for the trellis where it will be protected from high winds. Use the Lower Panel to determine where the Stakes will be placed by marking the ground with the Lower's Panels legs.

Step 2. Push the Stakes into the marked spots, all the way up to the horizontal bars (Figure 1).

NOTE: The Stakes should be perpendicular to the trellis panels.

Step 3. Slide the legs of the Lower Panel over the tops of the Stakes. Slide the Upper Panel on top of the Lower Panel (Figure 1). Your assembly is complete!

Care Instructions

This trellis has a clear, weather-resistant powder coating that has been hand-painted to resemble aged metal. If the finish is nicked or scratched, touch it up with an exterior-grade metal paint to prevent rust.
