

Bamboo Light Garden Base

Make your Bamboo Light Gardens mobile with this attractive Base. It's easy to assemble and allows you to roll your Light Garden.

Assembly

Place the Base upside down on a flat surface. Line up the holes in the Casters with the 4 predrilled holes in each corner and use the Screws and a Phillips screwdriver to attach them (Figure 1). Flip the Base over so it is upright and place your Light Garden on top of it. It should slot securely into place.

Figure 1

You can also make a rolling plant stand or dolly with the Base by placing a Galvanized Tray for Bamboo Light Gardens (8597905, sold separately) inside.
